Re: Southern Nevada Carpenters and Affiliated JATC Application for New Apprenticeship Program expanding the Carpenter program

Dear Mr. Williams:

This firm has been retained to represent the International Union of Painters and Allied Trades District Council 16 Joint Apprenticeship Training Committee ("District Council 16"). Your October 8, 2020, letters to District Council 16 c/o Painters JATC, Floorcoverers JATC, and Drywall Finishers JATC regarding the proposed new occupations and expansion of the Carpenter program encompassing Glazier, Drywall Finisher, and Floorcoverers work by the Southwest Carpenters and Affiliated Trades JATC ("Carpenters JATC") has been referred to this office to prepare a written reply to the Nevada State Apprenticeship Council ("NSAC") for its upcoming meeting on November 19, 2020.

On behalf of Northern California & Nevada Finishing Trades Institute, District Council 16 objects to the Carpenters JATC's proposal as it interferes with District Council 16's established agreements recognized work jurisdiction. The proposed expansion of the Carpenter program to include Glazier, Drywall Finisher and Floorcoverers work encompasses work that has been recognized as being within the jurisdiction of District Council 16 for decades. The overwhelming majority of the employers have performed this work are already signatory to collective bargaining agreements with District Council 16 sister organizations for drywall finishing. The submission of the proposed standards by the Carpenters JATC will not only negatively impact District Council 16 members who have been performing this work, see attachment A, but will also negatively impact employers, see attachment B, and is nothing more than an attempt to cloud this previously recognized work through an unconventional method rather than through traditional organizing in the construction industry. Approval of this proposed competing program would upset the balance that has been established between the building trade crafts over the last several decades.

The Carpenters JATC's proposed additional scope to the Carpenter program seek to throw out the decades of recognized assignment of work to District Council 16 which has done this work for decades and promises to create a new era of jurisdictional disputes, labor unrest, grievances, arbitrations, NLRB charges and litigation. These events will compound the untold construction delays, cost overruns and millions of dollars in expense on Nevada construction sites that the industry is already experiencing due to COVID-19.

Section 610.020 of the Nevada Revised Statutes ("NRS") describes the purposes of the NSAC. One of these purposes is to "regulate the supply of skilled workers in relation to the demand for skilled workers." The NSAC is to carry out the purposes designated by NRS 610.020, by taking such actions as are necessary and by approving or rejecting programs or standards for apprenticeship programs as required to fulfill those purposes (NRS 610.095).

The Carpenters JATC proposal shows no reason or basis for the expansion of the Carpenter program into these areas that have long been assigned to District 16. Instead, it will unnecessarily dilute the supply of skilled workers performing this work and will necessarily lead to downward pressure on pay. The Carpenters JATC should not be allowed to do this by circumventing normal organizing requirements. Hopefully the NSAC will reject The Carpenters JATC's proposal in the interest of work preservation and the protection of labor peace.

Included in the NRS descriptions of the NSAC is the duty to protect Nevada workers. If the Carpenters JATC's proposal were approved, the affected workers and their employers could also be injured. In addition to the negative impact to wages, union members performing the work in question could be faced with demands to join two unions. They also would run the risk of reduced work hours leading to the loss of health and welfare and pension benefits. Furthermore, employers could face the risk of dual or competing claims for fringe benefit contributions, or the obligation to pay double contributions to Taft-Hartley trust funds. The obligation to make double contributions has been required where there is competing language in collective bargaining agreements or two unions are claiming the same work. *See Maxwell v. Lucky Construction Co.*, 710 F.2d 1395 (9th Cir. 1983) and *Trustees v. Glass Masters, Ltd.*, 2004 U.S. App LEXIS 7649 (7th Cir. 2004). In *Lucky Construction*, an employer of an employee who was a member of two unions was required to pay double fringe benefit contributions because the employee performed some work covered by each of the collective bargaining agreements. In *Glass Masters, Ltd.*, an employer had to pay contributions to two trust funds for the same employee hours where two unions were both claiming the same work as their own. The Carpenters JATC's proposal could result in the same actions in Nevada.

The Carpenters JATC should not be permitted to upset decades of recognized work jurisdiction accepted as being that of District Council 16. The NSAC should make every effort to require compliance with the Nevada Revised Statutes, preserve the agreed work jurisdiction, preserve labor peace and protect Nevada workers from needless disputes and litigation as well as

potential lost wages and benefits. District Council 16 urges the NSAC to reject Carpenters JATC's proposal.

Should you have any questions or comments, please do not hesitate to contact me.

Very truly yours,

Paul D. Cotsonis

Dear State Apprenticeship Committee,

My name is Martin, and I am currently a Journey person that has graduated from a registered Apprenticeship program in the TAPE Trade with the International Union of Painters and Allied Trades.

I am signing this letter to state my concerns that the Carpenters are proposing a competing Apprenticeship program in my area for my chosen Trade.

The reasons I am concerned, and I hope that the proposal will be denied, is because the Carpenters program will lower my standard of living by driving down our wages and benefits. Lower the requirements of training that are currently being offered and impact the workmanship, quality, and craftsmanship that is the standard of our Industry.

In closing, please consider these issues and the Industries this could impact.

Thank you.

Dear State Apprenticeship Committee,

My name is EDWARD SUBISTI and I am currently a registered Apprentice in the Floorcoverers JATC NV001940001 Trade with the International Union of Painters and Allied Trades.

I am signing this letter to state my concerns that the Carpenters are proposing a competing Apprenticeship program in my area for my chosen Trade.

The reasons I am concerned, and I hope that the proposal is denied, because of the facts that the Carpenters program will lower my standard of living by driving down our wages and benefits and make it harder for me to get my work hours and complete my Apprenticeship program promptly due to the direct competition. The IUPAT program that I have been in for 1 years, is the leading program in this area and trains us in all aspects of safety and skills needed in my chosen trade.

In closing, please consider these issues and the well being of the current registered Apprentices that are already in established programs in your decision.

Thank you.

My name is Kenneth Wilson, and I am currently a Journey person that has graduated from a registered Apprenticeship program in the Signaling Trade with the International Union of Painters and Allied Trades.

I am signing this letter to state my concerns that the Carpenters are proposing a competing Apprenticeship program in my area for my chosen Trade.

The reasons I am concerned, and I hope that the proposal will be denied, is because the Carpenters program will lower my standard of living by driving down our wages and benefits. Lower the requirements of training that are currently being offered and impact the workmanship, quality, and craftsmanship that is the standard of our Industry.

In closing, please consider these issues and the Industries this could impact.

Thank you.

RE: Competing Standards

Dear State Apprenticeship Committee

555 E. Washington Ave., Suite 4900

Las Vegas, NV. 89101,

On behalf of (Western Partitions Inc,) this letter is to appeal the State Apprenticeship standards that were submitted by the Carpenters. They are proposing a competing program in my area.

By proposing a competing program it will lower my business' ability to bid work and cause hardship in trying to compete with a program that lowers the standards. It will lessen the quality of the training that my workers will receive and impact the bottom line of my business.

The IUPAT Apprenticeship program that I have been in for 5 years, is the leading Apprenticeship program in this area and provides a skilled and trained workforce, to deliver a sound and valued product to my customers. This is necessary for me to run my business and therefore I would ask that you deny the competing program.

In closing, please consider these issues and the impact this could have on the Contractors that are already established in your decision.

Thank you.
