Hi Toni,

We discussed a few months back about NVE updating our program hours and some miscellaneous language. The hours totals have not changed, just allocated a bit differently per business needs. You'll see we created a summary of changes document and then a clean copy of the updated program. I have also attached our current program document for reference.

We have some negotiated wage changes as well for all of these programs, which I will send to the main NSAC inbox.

If you have time, I'd really appreciate your keen eye looking these over before the committee sees them. If there is anything glaring to change, certainly I'd want to take care of it before the meeting.

Thank you in advance and please let me know about any feedback on this submission
