# NORTHERN NEVADA CEMENT MASONS

## SECTION 7 – TRADE OR WORK JURISDICTION

1. This agreement covers the rate of pay, hours, and working conditions of all employees engaged in all work included in the trade jurisdiction of the O.P. & C.M.I.A. As defined in the current International Constitution of the O.P. & C.M.I.A.

Classification includes but not restricted to the following:

This Agreement shall cover all work coming within the recognized jurisdiction of the Operative Plasters and Cement Masons International Association of the United States and Canada.

Work shall be assigned in accordance with the terms of this Agreement. The Individual Employer shall, in his role and unlimited discretion, determine the need for and number of Employees necessary to perform any work covered hereby.

Without limiting the scope of the work covered hereby, it is agreed that Cement Masons work shall include but shall not be limited to all the following construction work:

- (a) All building construction, including but not limited to the construction, erection, alteration, repair, modification, demolition, addition or improvement in whole or part of any building structure.
- (b) All heavy highway and engineering construction, including but not limited to the construction, improvement modifications and demolition of all or part of any streets and highways (including sidewalks, curbs and gutters,) bridges, viaducts, railroads, tunnels, airports, water supply, irrigation, flood control and drainage systems, sewer and sanitation projects, wharves, docks, breakwaters or rip-rap stone, or operation incidental to such heavy construction work.

The work to be performed by Cement Masons shall include but not be limited to the following, when tools of the Cement Masons trade are used or required:

Setting screeds, screed pins, curb forms and curb and gutter forms, rodding, spreading and tamping concrete, hand application of curing compounds, applying topping (wet or dry) colors or grits; using Darby and push floats, hand troweling or hand floating; marking edging, brooming or brushing, using base cove or step tools; chipping, and stoning, patching or sacking; dry packing; spreading and finishing gypsum, operating mechanical finishers (concrete) such as Clary, Jackson, Bidwell Bridge Deck Paver or similar types; grinding machines; troweling machines, floating machines powered concrete saws; finishing of epoxy and resin materials, bush hammering and exposed finishes for architectural work.

Operation of skill saw, chain saw, Laser Screed, Laser Level, Curb and Slipform machines, Epoxy Type Injection pumps, stamps or other means of texturing, any new devices, which are beneficial to the construction of or with concrete or related products.

The foregoing shall apply to temporary yards established off the job site, to service a particular job, for the duration of that job.
