THE GOVERNOR'S OFFICE OF WORKFORCE INNOVATION, THE NEVADA STATE
APPRENTICESHIP COUNCIL, AND THE U.S. DEPARTMENT OF LABOR

Appendix A

WORK PROCESS SCHEDULE

This schedule is attached to and a part of these Standards for the above identified occupation.

1.	TYPE O	F OCCUPATION						
	∑ T	ime-based		Competency-	based			Hybrid
2.	TERM	OF APPRENTICESH	IP					
	The term of the occupation shall be defined by the attainment of all competencies of the position, which would be expected to occur within approximately _6000 hours of OJL, supplemented by the minimum of 144 hours of related instruction per year of the apprenticeship.							
3.	RATIO	OF APPRENTICES TO	JOURN	EYWORKERS				
		prentice to journeyw tice(s) to 1_ journey					s: 2_	
4.	APPRE	NTICE WAGE SCHEDU	JLE					
	Apprer either a compe	rentice minimum sta atices shall be paid a a percentage or a dol tent worker wage. A at least <u>\$ 25.50</u> .	progres lar amo	ssively increas ount of the cur	ing sch rent ho	edule of v urly journ	vages l neywo	based on rker/fully-
	1-Year	Term Example:						
	1 st	6 months = 57%	or \$14.	63	2^{nd}	6 months	s =60%	% or \$15.30
5 .	WORK	PROCESS SCHEDULE	(See att	ached Work Pro	cess Scl	nedule)		
		onsor may modify th tandards to the appr						o submitting
6.	RELAT	ED INSTRUCTION OU	TLINE (See attached Re	lated In	struction (Outline)

The sponsor may modify the related instruction to meet local needs prior to submitting these Standards to the appropriate Registration Agency for approval.

Appendix A

WORK PROCESS SCHEDULE

The term of the occupation shall be defined by the attainment of all competencies, both technical and behavioral, of the position, which would be expected and approximated to occur within __6000_____ hours of OJL, supplemented by a minimum of 144 hours of related instruction per year of apprenticeship.

Apprenticeship Competencies - Technical

Prepare for System Installation	600
 Review & understand electronic system requirements & documentation (blueprints, etc.) 	
Perform site survey	
Develop overall job plan	
Organize technical work plan	
Complete pre-assemblies & fabrication of sub systems	
Gather inventory/parts	
Pre-test components	
Inventory tools	
Wire Buildings	950
Use documentation to lay out components	
Secure work area; drop cloths, safety cones, etc.	
Rough in device component locations	
Install cable support structure or drill wire paths	
Pull & secure wire	
Label tag wire/cable per documentation	
Trim	1125
Pre-termination functions	
Prepare cable ends	
Route cable	
Connect passive devices	

• Connectors	
• Outlets	
Patch panels	
• Splicing	
Intermediate termination	
Install Components	1000
Remote location components	1000
Central/main location	
Configure-Program	375
Calibrate & align electronically and physically	
Install or enter control programs, if applicable (complex)	
Set up system instructions, labels, etc. (simple)	
Test, Troubleshooting, Debug	600
Power up	
Operate and test functions	
Evaluate performance	
Identity problems, errors, discrepancies	
Diagnose causes of problems	
Take remedial action	
Document actions (see documentation section)	
Train Users	375
Review user documentation manuals & instructions	
Identify training objectives	
Confirm actual users and their requirements	
Procure or develop training & user aids, manuals, etc.	
Demonstrate system function by guiding users through the system	
Observe user using the system (have customer demonstrate knowledge of the system)	
Communicate results of training back to all relevant parties. Does not prop door during delivery	
Documentation	375

Review final blueprints, writing diagrams, and hookup instructions • Complete work reports and time sheets	
Provide/prepare/deliver system documentation	
User manual and training materials	
As built drawings	
Zone diagrams	
Equipment lists	
Warranty paperwork	
Maintenance & Repair	600
Maintenance	
Perform scheduled preventive maintenance	
• Repair	
Diagnose problems Read documentation	
Total Hours	6000

The above on-the-job-learning (OJL) work process competencies are intended as a guide. It need not be followed in any particular sequence, and it is understood that some adjustments may be necessary in the hours allotted for different work experience. In all cases, the apprentice is to receive sufficient experience to make them fully competent and use good workmanship in all work processes, which are a part of the industry. In addition, the apprentice shall be fully instructed in safety and OSHA requirements.

Apprenticeship Competencies - Behavioral

In addition to mastering all of the essential technical competencies, an apprentice must consistently demonstrate at an acceptable level the following behavioral competencies in order to complete the apprenticeship.

Item #	Behavioral Competencies
1.	Participation in team discussions/meetings
2.	Focus in team discussions/meetings
3.	Focus during independent work
4.	Openness to new ideas and change
5.	Ability to deal with ambiguity by exploring, asking questions, etc.
6.	Knows when to ask for help
7.	Able to demonstrate effective group presentation skills
8.	Able to demonstrate effective one-on-one communication skills
9.	Maintains an acceptable attendance record
10.	Reports to work on time
11.	Completes assigned tasks on time
12.	Uses appropriate language
13.	Demonstrates respect for patients, co-workers and supervisors
14.	Demonstrates trust, honesty and integrity
15.	Requests and performs work assignments without prompting
16.	Appropriately cares for personal dress, grooming and hygiene
17.	Maintains a positive attitude
18.	Cooperates with and assists co-workers
19.	Follows instructions/directions
20.	Able to work under supervision
21.	Able to accept constructive feedback and criticism
22.	Able to follow safety rules
23.	Able to take care of equipment and work place
24.	Able to keep work area neat and clean
25.	Able to meet supervisor's work standards
26.	Able to not let personal life interfere with work
27.	Adheres to work policies/rules/regulations

RELATED INSTRUCTION OUTLINE

The related instruction has been developed in cooperation with employer-partners as part of the apprenticeship. The following is a set of courses to be delivered by subject matter experts.

Related Technical Instruction (RTI) - This instruction shall include, but not be limited to, at least 445 hours per year for each year of the apprenticeship. The related theoretical education listed below is tightly integrated with real work product. The curriculum is defined as a variety of classes, around which the exams and projects are based. By defining the RTI this way, all competencies required of the students are met, through project work.

Introduction to the trade 2 Communication skills 2 Employability skills 2 Basic Safety 40 Basic Construction Math 8 Introduction to Hand Tools 10 Basic Rigging 10 Introduction to Construction Drawings 8 Introduction to Power Tools 5 Construction Materials & Methods 15 Pathways and Spaces 10 Fasteners & Anchors 5 Hand Bending of Conduit 5 Job Site Safety 12 Low-Voltage Cabling 20 DC Circuits 10 AC Circuits 10 Semiconductors and Integrated Circuits 12 Test Equipment 10 Grounding and Bonding 10 Introduction to Electrical Drawings 12 Switching Devices and Timers 10 Wire and Cable Terminations 14 Introduction to Codes and Standards 10 Cable Selection 10 Susses and Networks 9 <th></th> <th></th>
